

(“Intro to App Lab”) Lesson in Code.org

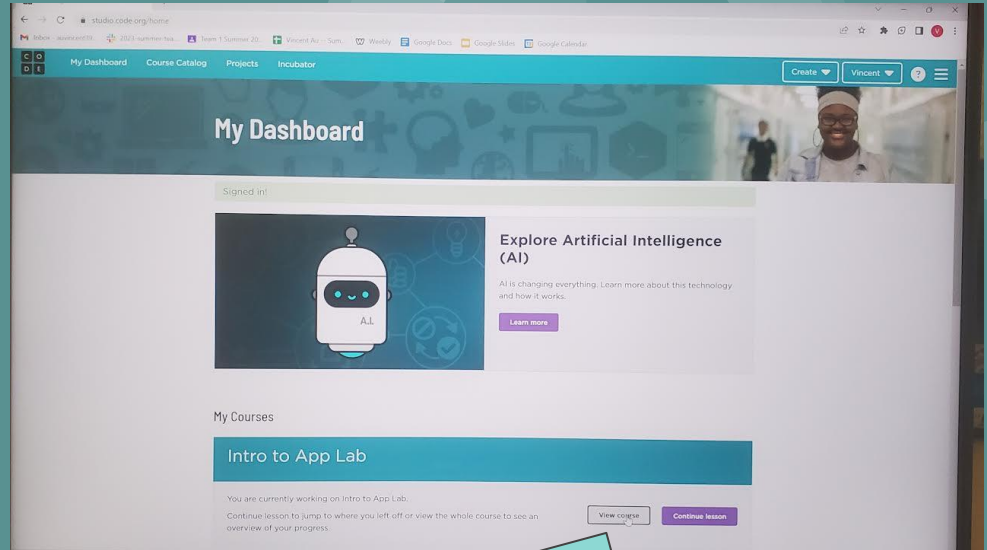

By Vincent A.

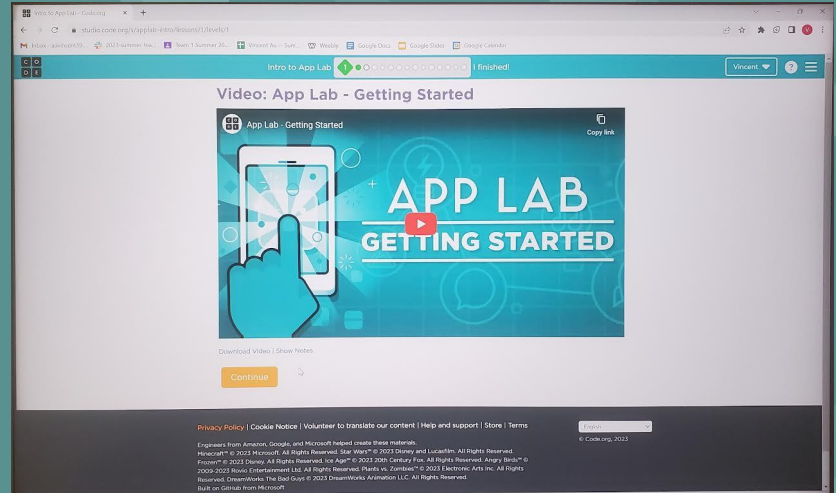

Step 1: Type code.org and create your account with email and password

**Step 2: Click
the “Start
Lesson” or
“View Course”
to begin your
lessons**

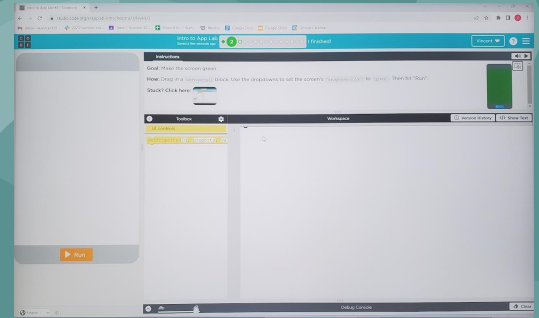

Step 3: After clicking the “Start Lesson”, you’ll first encounter a video that’ll introduce you to app building

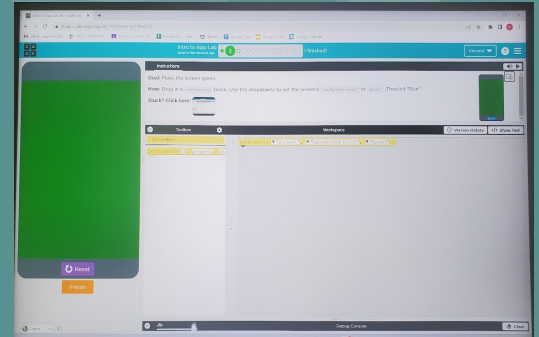

Step 4: In this first module, your goal is to change the little app screen to green with the use of the “Toolbox” & click “Run” when you are done.

Before:

After:

Step 5 (Challenge): If you are finish with the modules within the lessons, complete the assessments/modules at the very end of the lesson.
